

# Automated optimization for Savings Plans and RIs

Seize the biggest cloud discounts with the smallest commitment.

Eco by Spot perfectly met our needs of freeing up our team to focus on our product while obtaining a significantly higher level of RI savings and making it easy to tweak over time.

— **Jason Turim**  
VP of Engineering

## Flexible and risk-free

Eco Flex removes financial lock-in and optimizes utilization by offloading unused Savings Plans and RIs.

**Why Eco**

## 45% Increase in savings

Easily expand reserved compute coverage for increased average savings of over 45%.

## DevOps and Finance Synergy

Free up DevOps and Finance to focus on core activities, instead of RI planning and management.

## Compatible services

EC2

RDS

ElastiCache

Elasticsearch

Redshift

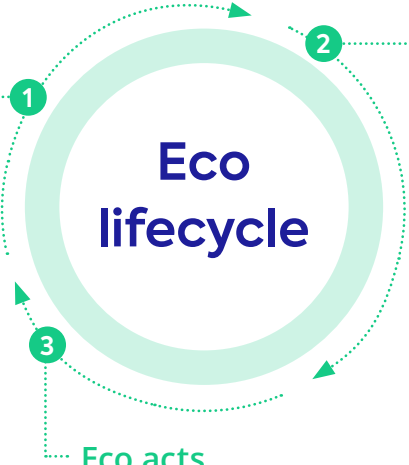

DynamoDB

CloudFront

Fargate

### Eco analyzes

Analysis of all AWS usage and billing data by dimensions such as region, instance family, lifespan and scale, alongside years of detailed marketplace and industry data, results in an aggregated and holistic view of on-demand use across all linked accounts.

### Eco plans

Building on the analytics, customized strategies combine any number of RI and Savings Plans purchase options to keep commitment terms low and utilization high, for maximum savings and flexibility.

### Eco acts

With a complete view of your cloud consumption, Eco creates an optimal portfolio of Savings Plans and RIs while continuous optimization based on market availability and analysis of usage trends ensures maximum utilization and ROI.

## What Eco can do for you

### Reduce time and effort needed for reserved capacity planning

With full visibility into EC2 consumption and AI-driven capacity planning, Finance and DevOps teams can easily collaborate on planning and managing cloud cost, eliminating most of the time and effort spent to achieve optimal purchasing of RIs and Savings Plans.

### Ensure full utilization of RIs and Savings Plans

Real-time monitoring and tuning of your committed capacity coupled with the ability to offload any unused Savings Plans and RIs, guarantees maximum utilization and savings.

### Leverage the best AWS RI Marketplace deals

Fully automated RI buying and selling in the AWS Marketplace delivers the highest savings available and ensures your workloads are running at optimal pricing with minimum lock-in.
